SERVICES

CONSTRUCTION

For over 40 years, Rogers has been providing industry-leading, nationwide electrical contracting solutions to our clients. With a robust Pre-Construction team, five construction offices and over 500 electricians, we are prepared to safely and efficiently self-perform new construction, remodels or special projects nationally.

ROLLOUTS

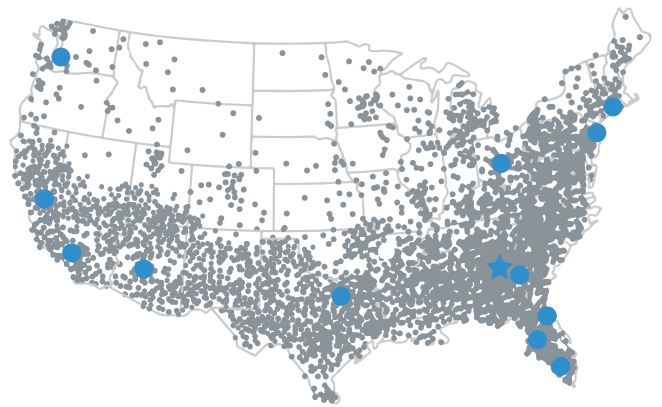

Rogers is the leader in electrical, lighting and data within the multi-site consumer space. Our PM's mission is focused on budgets, timelines, quality, and safety. Through our wide range of expertise, our project management process fosters confidence between our employees, public authorities, other trades and most importantly, our clients.

MAINTENANCE

Rogers provides electric break and repair services anywhere in the U.S. By positioning our resources geographically and using enhanced technology, we offer highly skilled, local professionals and guaranteed response times.

LIGHTING

Our team performs energy audits to determine where and how energy is being lost at your business. Rogers can repair, install, upgrade and retrofit any lighting system, anywhere in the U.S. Rogers offers on-demand lighting services to clients 24 hours a day, 7 days a week.
